EDUCATION

Bachelor of Technology - Computer Science Engineering
Rajiv Gandhi College of Engineering and Technology

2020 - 2024   *80.08*

HSLC
Don Bosco Matriculation Higher Secondary School

2019 - 2020   *54.3 %*

SSLC
Sri Sankara Vidyalaya Matriculation Higher Secondary School

2017 - 2018   *72.4 %*

PROJECT

PayPal Payment Integration (04/2025 - 05/2025)
- Developed and Integrated PayPal standard checkout using Java SpringBoot in a Microservices architecture on AWS, with OAuth 2.0 security and full payment lifecycle tracking
- Optimized System Performance using Redis Cache, Spring Scheduler, and circuit breaker, while ensuring clean architecture and unit-tested, agile-driven delivery
- Tools: Spring Tool Suite(Eclipse), DBeaver, Postman, BitBucket, SourceTree, MobaXterm

Digital Identity Verification using Blockchain
- Proposed a blockchain-based digital identity verification system using NFTs to ensure secure, immutable, and verifiable credentials.
- Built on Ethereum, the solution enables users to create, manage, and validate identities while enhancing privacy, trust, and usability.

TECHNICAL EXPERIENCE

Java Internship
HulkHireTech

04/2025 - 05/2025   *Hyderabad*

TECHNICAL SKILLS

JAVA   React   MySql   Spring Boot   AWS

Microservices   Restful API   DBEaver   Postman

BitBucket   SourceTree   MobaXterm   OAuth

Agile

CERTIFICATE

Robotics workshop conducted by EXOR ROBOTICS

INTERESTS

Web Development   App Development

Full Stack Development
